TECHNICAL KNOWLEDGE

Languages: C, Java, JavaScript, Swift, PHP, Python, MySQL, HTML, and CSS.

Tools: Git, Bootstrap, Xcode, GDB, Atom, and Netbeans.

PROFESSIONAL EXPERIENCE

Java Learning Assistant (Co-op)   Oakville, ON (Sept-Dec 2017)
Sheridan College

- Effectively explained programming concepts to new students through one on one appointments and drop-in sessions which 87% of surveyed students rated very good or excellent.

- Facilitated a new initiative to service students by expanding their learning during a strike period. Project included a set of challenging Java problems based on strings, loops, and class design.

- Organized and co-lead Exam Cram group study sessions preparing Level 1 Java students for midterm and final exams while breaking an attendance record with 225 students across two campuses.

- Co-lead multiple weekly lab sections reviewing and providing supplementary material for students.

PROJECTS

Show Tracker App (In Development) → Swift

- IOS application that allows users to keep track of movies or TV shows they are watching.

Web Messenger → PHP/MySQL/HTML/CSS

- Web messaging system where users can log in, post, and view different threads of messages.

EStore → Java

- Catalog application where users can add, search, and remove book or electronic items through GUI.

EDUCATION

Bachelor of Computing, Computer Science (Co-op)   Guelph, ON (2015-Present)
University of Guelph   Expected April 2020
